

# Digital thermo-hygrometer 30.5051

Item number: 30.5051.02

Item number: 30.5051.01

## *Highlights:*

- Ideal to monitor your indoor climate
- With flexible magnetic holder for hanging or standing
- With self-adhesive foil

## *Product specification*

The digital thermo-hygrometer from TFA Dostmann is an ideal measuring instrument for monitoring the indoor climate. You can easily keep an eye on the room temperature and air humidity and regulate it through targeted heating and ventilation. In this way you create a comfortable and healthy living environment and even save on heating costs. The simple and compact

design of the thermo-hygrometer fits in every living room. You can use the practical magnetic holder as a stand or easily attach it to many surfaces with the adhesive pad.
